

Ecologic – part of the family

Everyone in our team shares a real sense of adventure and a love for the natural world. From our eco-designers and craftsmen builders to our construction crews and project managers, we all believe in inspiring change within the building sector in a bid to become more sustainable.

At work and in our personal lives, we all pay careful attention to the impacts we have on the planet and we're always on the lookout for new ways to reduce our carbon footprints.

Our people mean the world to us!

Employee benefits

Competitive salary: plus we offer an annual performance related pay increase
